

MEYER BOP CLOSING UNITS

BOP Closing Units Built to Spec

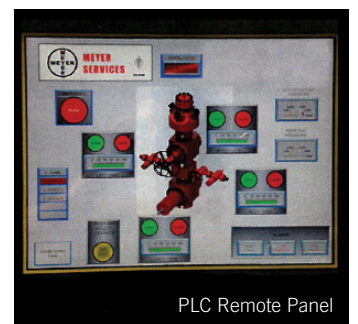

Let our expert staff work with you to engineer the right unit for your application. We will work with you to size the unit to API guidelines and build the unit to your requirements.

Meyer closing units are designed with service and reliability in mind: Bottles and bladders are easily accessible and serviceable. Meyer's modular design allows for future expansion and addition of bottles, if your specs change we can help you adapt.

Customized to your needs

Meyer BOP closing units offer many options including:

- Electric motor power: explosion proof or industrial
- Diesel powered pumps: auto start or manual start is available
- Air motor powered pump: single pump and multiple pump configurations
- Remote panel: air, electric push button, PLC touch screen

PLC Remote Panel
