

# MEYER HIGH FLOW GREASE UNIT

## MEYER High Flow Grease Unit

MEYER's industry leading High Flow Grease Unit is designed for the most demanding customers. Engineered to control the challenge of multi-station grease manifolds.

The high flow grease unit provides a 250% increase in volume and storage allowing for continuous duty operation under most conditions.

Dual 55-gallon drums provide increased capacity along with safer, faster pump swaps.

MEYER flip latch eliminates ropes and straps to secure drums with a quick latch release pin system.

### Standard Features

- High flow 3-cylinder compressors
